PROJECTS

2021

PERSONAL PORTFOLIO PAGE, WWW.WILLIAMVUONG.CA

- Tools: HTML, CSS, JavaScript, React
- A fully responsive personal portfolio website to display information about myself, my skills, and projects
- Utilizes functional components hooks such as 'useState' and 'useEffect' and incorporates 'BrowserRouter' (previous website iteration) to route the pages
- CSS conditions are implemented to incorporate meaningful animations and to create a responsive webpage

2021

IT-LOGGER, HTTPS://WVITLOGGER.NETLIFY.APP

- Tools: HTML, CSS, JavaScript, API, React, Redux
- A fully responsive CRUD application that stores data in an API for the purpose of logging events in an IT department
- Implements Redux to effectively control app level state

2021

GITHUB FINDER, HTTPS://WVGITHUBFINDER.NETLIFY.APP

- Tools: HTML, CSS, JavaScript, API, React
- A fully responsive application that fetches queried users that is entered in the search bar from the GitHub API, and displays a specific GitHub user's information
- Utilizes Context API to effectively control app level state

2020

STUDIO 6IX BUSINESS PAGE, WWW.STUDIO6IX.CA

- Tools: WordPress, Elementor
- Utilizes WordPress tools to create an intuitive website design that is easy for the user to navigate to view the services offered, staff members, and contact information of the business
- Utilizes custom WordPress plugins such as Google Maps and slide show to help enhance a user's experience

EDUCATION

MAY 2017 – MAY 2019

COMPUTER PROGRAMMING, SENECA COLLEGE

- Demonstrated the ability to implement different coding languages to complete various complex assignments
